

Ductile Clamps

We back our clamps with a limited lifetime warranty on the clamp bodies. We will replace any ductile iron clamp body that cracks or breaks under normal use for as long as the original purchaser owns them, and Grade 2 bolts are used. (See Warranty Information for details.)

Standard Features

- Clamp is designed to break a bolt when an obstruction is hit. Replacing this bolt is quicker and less expensive than replacing the entire clamp.
- Adjustments are quick and easy. Clamps can be moved laterally on the bar. Height setting is changed with adjustment of set screws on the clamp body. Clamps are uniform and produce consistent settings along the tool bar.
- Bolts, nuts and set screws are zinc plated for rust prevention.

	P/N	Bar Size	Shank Size	Ship Wt.
1.	806-773	7x7"	1x3"	27 lbs.
2.	806-473	4x7"	1x3"	23 lbs.
	806-472	4x7"	3/4x2-1/2"	19 lbs.
3.	806-403	4x4"	1x3"	21 lbs.
	806-402	4x4"	3/4x2-1/2"	17 lbs.

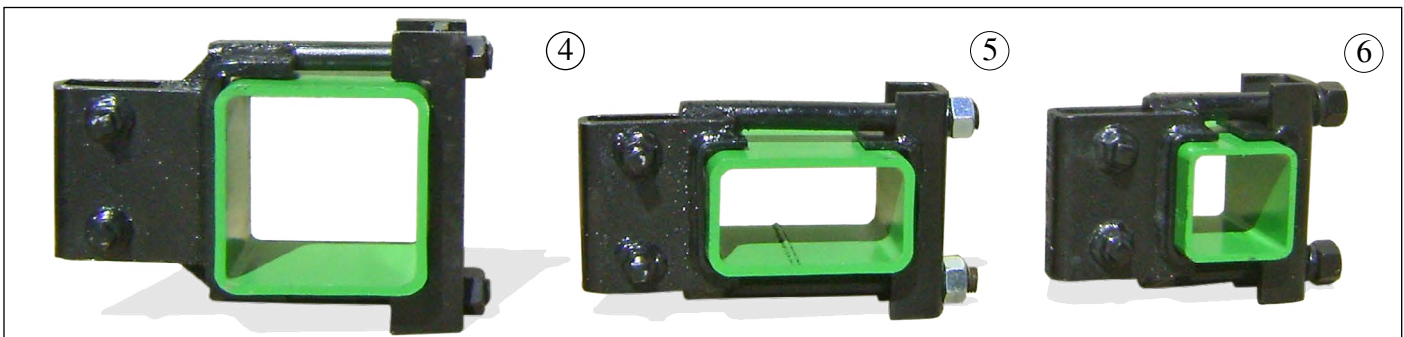

Fabricated Clamps

Bigham Fabricated Clamps offer a price competitive alternative to our ductile iron clamps. These clamps are available for tool bar and shank sizes as listed.

Standard Features

- Clamp bodies for 1x3" shank mount to the tool bar with 1" bolt studs.
- Clamp bodies for 3/4x2-1/2" shank mount to the tool bar with 7/8" bolt studs.
- Two 5/8" set screws in the side of each clamp hold the shank in place.
- Clamp bodies are manufactured from heavy plate steel.

Fabricated Clamps

Heavy Duty Welded Clamps are available for 1x3" shanks to fit 5x7", 7x5" and 7x7" tool bars. Extended clamps provide extra clearance (6 or 12") from tool bar to 1x3" shank. We can custom build any type of tool bar clamp. Please call for items not listed.

Standard Features

- Clamp bodies for all clamps listed mount to the tool bar with 1" bolt studs.
- Clamp bodies are built from heavy plate steel.
- Two 5/8" set screws hold the shank in place.

	P/N	Bar Size	Shank Size	Ship Wt.

8.	806-753HD	7x5"	1x3"	24 lbs.
9.	806-463	4x4" (6" Extd.)	1x3"	28 lbs.
	806-465	4x4" (12" Extd.)	1x3"	32 lbs.

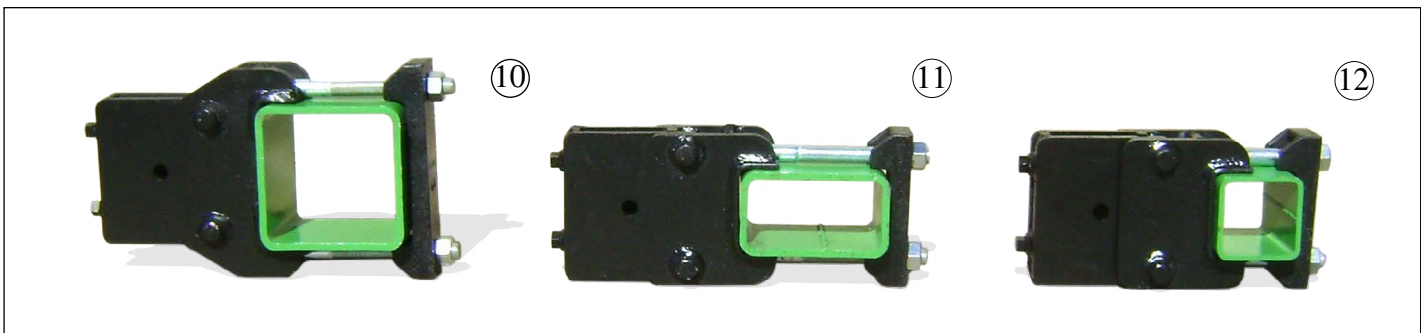

Breakaway Clamp for 1x4 Shank

Prevent costly damage when you encounter subsoil obstructions. This two-piece clamp features shear bolt protection against damage caused in collisions with rocks, stumps, or buried pipes. Attach 1x4 shanks to 4x4, 4x7, and 7x7 inch tool bars.

Standard Features

- Fabricated from heavy plate steel.
- Breakaway section pivots the leg away from danger in case of collision with buried object.
- Replaceable shear bolt.
- Three set screws hold shank in place.
- Mounts on front or rear of tool bar.
- Use 1x3 shanks with optional spacer block.

	P/N	Bar Size	Shank Size	Ship Wt.
10.	806-408	7x7"	1x4"	45 lbs.
11.	806-407	4x7"	1x4"	42 lbs.
12.	806-406	4x4"	1x4"	39 lbs.
